Dear Joe:

Just a brief note expressing how much I enjoyed, as well as learned from you personally and from the module we just completed at the Esthetic Center. I truly believe that it is immeasurable.

I wrote a brief review, without details, for Fred to read. A copy will be mailed to you and Rob. My feeling is that the module established precedents applicable to the A.A.I.D. and A.A.C.D. We have a concept, guidelines, as well as outline and an insight into a great need in dentistry.

Once again, working with you was most pleasurable and rewarding. I am certain that I speak for Rob, as well as myself.

Warm personal regards,

A handwritten signature in cursive script that reads 'Bob'.
