Dear Dr. Carrick:

On behalf of Dean Till, the School of Dentistry and Continuing Dental Education, we wish to express our sincere appreciation for your presentation during the continuing education courses "**Postgraduate Program in Esthetic Dentistry: Levels I, & II**" held on March 31-April 2, 2000.

You will receive a copy of the course critiques once they are compiled. I looked over the comments and they were extremely positive. They seemed to really enjoy your portion of the program. Comments from the course participants included: "I really liked his discussion on meeting with the specialist to help each other solve problems and to think cosmetically." "He is an interesting speaker and a talented dentist."

Once again, thank-you for being apart of both of these postgraduate programs. Your teaching and clinical expertise is greatly appreciated.

Sincerely,

Lynda Young Kreischer
Director
